MADE  IN FRANCE

GRILLE Freeze

Its finishes, service life, excellent value for money make it a cover that is particularly useful on a day-to-day basis.

Designed and manufactured in accordance with the NF P 90-308 standard, GRILLE Freeze safety and winterisation mesh cover has the advantage of perfect tension. It is made from a strong and lightweight material.

1 Filtering

Prevents water pockets from forming and protects from dirt. Suitable for heavy rain and recommended for snowy or windy areas.

2 Perfect tension

Its fastening system with springs gives it perfect tension once in place over the pool.

Economical

and safe, quality without compromise.

3 PVC reinforcement

Limits wear and tear and protects the mesh at the inside corners of the stairs and cover.

4 Abrasion protection

Obtained by the installation of crystal reinforcements under the fastenings.

Quick and easy installation

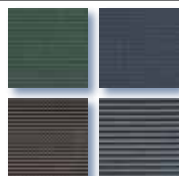

thanks to its lightness.

*Production and material against any manufacturing defects within the limit of the maximum dimensions, according to our general conditions of sale.
Maximum cover dimensions: 14.8 x 6.8 m (stairs included) for compliance with the standard NF P 90-308.
